

**Workshop on Reproductive Biotechnologies for Enhancement of  
Livestock Productivity**

**20-21<sup>st</sup> January, 2014**

**Venue:**

National Institute of Animal Biotechnology (NIAB)  
1-121/1, 4<sup>th</sup> and 5<sup>th</sup> Floors  
Axis Clinicals Building  
Miyapur  
Hyderabad – 500 049

**Aims:**

- ❖ To explore the recent advances in reproductive biotechnology at national and global level.
- ❖ To identify the gaps in the reproduction research that hinder the link between research and its application.
- ❖ To identify potential and demanding areas in animal reproduction in which research needs to be undertaken.
- ❖ To identify possible collaborations with universities, institutes and researchers pertaining to reproduction research.

**Programme:**

- ❖ Day 1: Talks by invited speakers
- ❖ Day 2: Panel discussions

**Convenors:**

Dr. Satish Kumar, Scientist & Dean, NIAB  
Dr. M. S. Chauhan, Principal Scientist, NDRI

**Contact:**

Dr. Satish Kumar: [satishk@niab.org.in](mailto:satishk@niab.org.in)  
Dr. M. S. Chauhan: [chauhanabtc@gmail.com](mailto:chauhanabtc@gmail.com)

**Organizing committee:**

Prof. P. Reddanna, Director, NIAB  
Dr. Sathya Velmurugan, Scientist, NIAB  
Dr. Himabindu Gali, Res. Assoc., NIAB

[Participation by invitation only. \***Prof. Paul J. Verma**, Reproductive Biology unit, South Australian Research & Development Institute, and Adjunct Professor at Monash University & Adelaide University, will be a special invitee at the workshop.]
