

Recruitment of Post Doctoral Fellow

Advertisement No. 3/2013

National Institute of Animal Biotechnology (NIAB) is an autonomous institute under the Department of Biotechnology, Ministry of Science and Technology, Government of India, presently located on the campus of University of Hyderabad.

The focus of NIAB is to promote translational science and capacity building in the area of Animal Biotechnology. The vision is to enhance knowledge on livestock production and health and translate the knowledge for developing a globally competitive livestock industry through innovative science and technology development. A key feature of NIAB is that it will function as an incubator for start-up companies and will also act as a national repository of biotech products and processes and promote bio entrepreneurship in the country.

The research at NIAB is focused on Animal Genetics and Genomics, Transgenic and Biotech Animal Products, Reproductive Biotechnology, Animal Health and Nutrition Enrichment. NIAB aims at catering to the needs of animal healthcare sector in India with major emphasis on conducting high quality research and attracting world-class talent. Among other activities, the institute aims at research leading to the development of vaccines, diagnostic kits and improved therapeutic molecules for farm animals.

NIAB is currently recruiting a post-doctoral fellow with MVSc and PhD qualification who has relevant research experience of working in BSL3 laboratories with infectious agents such as FMDV and PPRV. Candidates with the required background are advised to apply online on or before August 21st 2013.

Applications are invited for the Post doctoral Fellow at National Institute of Animal Biotechnology

Post Fellowship	: Post Doctoral Fellow (One) : ₹ 22,000-24,000/- (based on experience) + 30% HRA p.m. The selected candidate is not expected to undertake private practice. Non Practicing Allowance (NPA) is admissible as per guidelines.
Minimum qualification	: MVSc and Ph.D from recognized institute/university with research experience of working in BSL3 laboratory with infectious agents such as PPRV and FMDV and experience in handling large animals.

The selected candidate will be appointed purely on temporary basis, initially for a period of one year and extendable after review.

Applications are to be filled ONLINE. Last date is 21st August, 2013. For more information, please visit www.niab.org.in.

Director, NIAB
